

PhD Opportunities

EPSRC Horizon Centre for Doctoral Training

Our innovative PhD programme combines research, technical and professional skills training, a placement with a partner organisation and opportunities for international exchanges

15 Fully Funded four-year PhD Studentships

We welcome applicants from a wide range of backgrounds including **computer science, engineering, physics, mathematics, human factors, human-robot interactions, psychology, sociology, business, geography, social science, medicine/health sciences** and the arts.

Our interdisciplinary PhD students are establishing technologies and methods to enable producers and consumers in the Digital Economy to co-create smarter products in smarter ways, to re-establish trust in the use of personal data.

September 2023 entry

You will receive an enhanced stipend of min £20,000 / year
